 - I. Claims 1-33, drawn to a system or an external cavity laser with method of controlling light output from that laser, classified in class 372, subclass 20.
 - II. Claims 34-36, drawn to a method of calibrating a tunable external cavity laser, classified in class 372, subclass 9.
2. Inventions I and II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another and materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case, the process in group II does not require a gain medium as it is required in all of the claimes in group I.
